CERTIFICATION OF A & B NO. 2 CLAIM, COCONINO COUNTY, ARIZONA

Symbol: MD:GCR

Abstract:

A forty acre tract located on the Navajo Indian Reservation, Coconino County, Arizona.

It is recommended that this property be certified.

Introduction:

An application for certification of the A & B No. 2 claim was received in Grand Junction, Colorado, on March 19, 1954, from Ike I. Arnn, Cameron, Arizona, on behalf of the A and B Mining Corporation.

The property was examined March 10, 1954, accompanied by Ronald Kelsch and Stanley Smith, employees of the A and B Mining Corporation.

Status of the Land:

The property is located in section 5, T. 28 N., R. 9 E., GCSR B&M, Little Colorado Mining District, Coconino County, Arizona.

This property is about one-half mile west of U. S. Highway 89. An unimproved road to the property proceeds west from U. S. Highway at a point approximately one mile and one-half south of the junction of Arizona Highway 64 with U. S. Highway 89.

The operators have made a metes and bounds survey of the claim and a map is included in this report.

The claim is monumented with rock cairns and the southeast corner is tied to milepost 464 on U. S. Highway 89.

Ownership:

This unit of mining property consists of one claim, 1200 x 1500 feet.

This claim is included in Mining Permit No. 98, issued by the Navajo Tribal Agency on January 13, 1954, to Harry Walter, a Navajo Indian.

OFFICE	MD				
SURNAME	<i>GCR</i>				
DATE	4/23/54	4/22/54			

Harry Walker and his wife Dorothy Walker have assigned mining rights to the property to the A and B Mining Corporation.

A copy of the mining assignment is on file in the Mining Division, Grand Junction Operations Office.

The assignment of mining rights was approved February 16, 1954, and the assignment runs for a period of one year, or the duration of the mining permit, with option for renewal.

The applicant for certification is the president and manager of mining operations for the A and B Mining Corporation.

No conflicts were noted.

There are no other mining claims immediately adjacent to this tract. The A & B No. 3 claim is approximately 4.5 miles northeast of the A & B No. 2.

Production:

Finance Division lists no production from this property during the critical period.

The property is eligible for bonus payments on 10,000 pounds of U_3O_8 .

Recommendations:

The A & B No. 2 mining claim is recommended for certification as a unit of mining property.

The claim lies in section 5, T. 28 N., R. 9 E., G&SR B&M, Coconino County, Arizona.

Production Possibilities:

The ore produced from this claim came from the Shinarump formation. The ore was found near the surface in thin lenses and pods. The thickness varied from two inches to five feet.

The predominant uranium mineral is of the carnotite type. The vanadium and lime content is low in common with most of the ore produced in this district.

The mining and metallurgical availability and highway accessibility classification is as follows:

Mining Availability	B
Metallurgical Availability	A
Highway Accessibility	C

The operators discovered the ore body by prospecting with a scintillation counter. The area was flown by the Atomic Energy Commission's airborne reconnaissance crews and an anomaly was mapped in this area.

Charles A. Haseer

- 3 -

April 22, 1954

The ore body occurs near the surface of a Shinarump knob. Development and mining has been accomplished by hand methods. A crew of four to six men were stripping overburden and mining about ten tons of ore per day.

A small amount of jackhammer exploratory drilling was being done but most of the ore was developed by following leads located with a scintillation counter. The maximum depth of drilling is about ten feet.

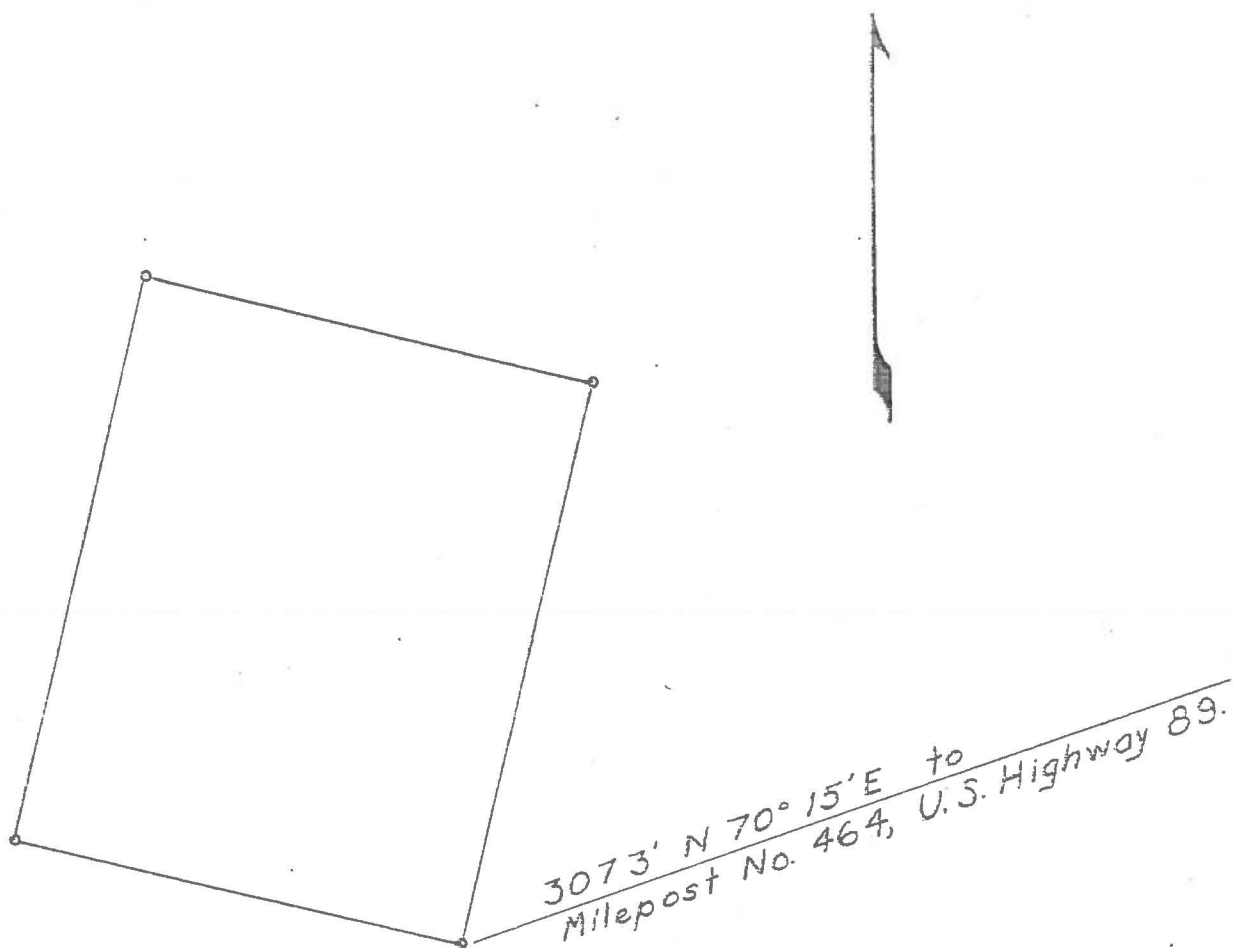

At the time of examination the operators had shipped sixty-five tons of ore. The grade of ore was as follows:

U ₃ O ₈	0.45%
V ₂ O ₅	0.19%
CaCO ₃	4.00%

These operators were of the opinion that they were keeping the grade too high and decided to ship more low grade.

According to information received just prior to submission of this report, they have now shipped 500 tons of ore and the grade has dropped to about 0.20% U₃O₈.

Re: CERTIFICATION OF A & B NO. 2, COCONINO COUNTY, ARIZONA

Gentlemen:

Your application for certification of your mining property has been examined by our engineers.

The property as certified consists of the following lands as listed in our engineer's report, namely:

A & B No. 2

Monument No. 1 of A & B No. 2 is located by azimuths of: 187° to Humphires Peak, 35° 30' to Buck Rogers Trading Post, 28° to Cameron Airport Hangar, 345° to Shadow Mountain and N 70° 15' E, 3073' to milepost 454, U. S. Highway 89; thence N 77° W 1200' to corner No. 2, the SW corner; thence N 13° E 1500' to corner No. 3, the NW corner; thence S 77° E 1200' to corner No. 4, the NE corner; thence S 13° W 1500' to point of beginning.

The above property lies in section 3, T. 28 N., R. 9 E., GCR B&N, Little Colorado Mining District, Coconino County, Arizona.

The certification number you will use in making application for bonus payment is B.U.P. 65-6-436. Several copies of an Application for Bonus Payment form are enclosed for listing each month's production since March 1, 1951.

As there have been no pounds of U₃O₈ produced between April 9, 1948, and February 28, 1951, inclusive, 10,000 pounds of U₃O₈ are eligible for bonus payments when contained in ores mined from this property and delivered to a qualified mill or Commission ore buying station between March 1, 1951, and February 28, 1957, inclusive.

Very truly yours,

Gentlemen:

This office is in receipt of your letter dated February 23, 1955, requesting that we expedite the payment of your application No. 10. This application was approved for payment by this office on February 16, 1955, therefore, you should have your check by this time.

Reference is made to our letter of January 27, 1955, addressed to your Flagstaff, Arizona address, setting out the reasons for slight delays of bonus payments on shipments made to the Anaconda Copper Mining Company. You may be assured that this office makes every available effort to pay the bonus as promptly as possible. However, at times, there are slight delays for reasons mentioned in our previous letter.

Very truly yours,

Robert W. Scott, Chief

Subject: Application for Bonus Payment Re: No. O-202

Gentlemen:

Reference is made to a letter from the A and B Mining Corporation dated December 27, 1954, requesting that we send you the amount of any payments due them for bonus payments on December 31, 1954.

Our records indicate that as of December 31, 1954 there were no applications from the A and B Mining Corporation on hand. However, this office approved for payment two applications for bonus payment in the amount of \$6,734.18 on December 21, 1954. This check should have been written and received by the A and B Mining Corporation prior to December 31, 1954.

Very truly yours,

Robert W. Scott, Chief

Re: AEC License #1616

Gentlemen:-

Our auditors, Messrs. Walff & Nagel, of 230 West 41st Street, New York, N.Y., are at present making the usual annual examination of our books and accounts as of December 31, 1954.

Kindly confirm to our auditors directly any payments which you will owe us on December 31, 1954 for bonuses on uranium ore shipments to Anaconda Copper Mining Company, Bluewater, New Mexico under above captioned license number.

A stamped, addressed envelope is enclosed for your convenience.

Very truly yours
